**NOTE** – This accommodation is **quite basic** and likely will consist of a thin mattress on matted floors, an outside pit toilet and bucket baths. Expect that we will all be sleeping in one large room. Meals will also be simple (taro, sago and chicken). There is no electricity in this community except for a few hours via a generator in the evening. A mosquito net is a must although it may be available at the home (we'll let you know a couple of months prior to departure about availability).

**HIGHLIGHT!** Arriving in the **rural Sepik region** and meandering through the many waterways are highlights all on their own. Numerous tribes reside in this region.
